

1st

International Congress

2nd

National Congress

Climate Change and Health

Dezful University of Medical Sciences and Health Services

Poster Writing Instructions

If your submitted abstract has been accepted as a poster, please follow the instructions below:

1. **Download the poster template** and insert your information into it. The dimensions have already been set.
2. **After inserting your content**, save the file as a JPEG. To do this, go to:
File > Export > Change File Type > JPEG File Interchange Format (*.jpg) > Save As
(as shown in the image below). If prompted with a question, choose "**Just This One.**"
3. **In your user dashboard**, go to the *My Submissions* section. Click on *Edit* next to the relevant abstract, scroll to the bottom of the page, and upload the JPEG file you prepared in the *Electronic Poster* section. Then click **Submit**.
4. **Your file will be reviewed by the organizing team**, and the result will be sent to you via email and SMS.
5. **Accepted posters will be displayed** as electronic posters on digital displays during the congress.

Some help:

- **Minimum text size: 34**
 - **Best font size: more than 44**
 - **If you want your poster to be more professional, use less text and more images, graphs and colors in each part of your poster.**
- It is your CREATIVITY!**
